

Construction Notice

Project: Ridge Street 8" Water Main Replacement

North Penn Water Authority (NPWA) will begin the construction of a new 8" water main on Ridge Street between East Second Street and East Third Street in Lansdale Borough on Monday, August 8, 2022.

Project Summary:

This new water main will replace older 4" water main prone to breakage and will enhance the public water supply and fire protection to the residents of the borough.

After completion of the water main installation, the water services will be renewed from the new water main to the property owner's curb stop located in the utility right of way behind the curb in the grass or sidewalk followed by soil, concrete & trench restoration weather permitting.

We anticipate the construction work for the water pipe to take approximately 2 to 3 weeks to complete, weather permitting. This work is being done in cooperation with Lansdale Borough.

Timeline:

TBD - Mobilization and construction will begin on Monday, August 8, 2022..

Questions:

Please call Jim Sharayko, NPWA Construction Superintendent, at 215-855-3617 x137 Monday through Friday between 8:30 am and 4:00 pm.

Customer Impact:

In order to ensure the public and workers' safety, the road will be closed to through traffic during the hours of work (7:00 am – 4:00 pm) Monday through Friday.

"No Parking" signs will be placed out the day before to designate the area of construction for that day. We kindly ask that you have your vehicle moved when your section of street is posted during construction hours.

At the end of each workday, the roadway will be open and traversable.

Emergency vehicles and residents will have access to their homes, but may experience minor delays in some instances.

We will make every effort to keep unobstructed access open to local residents to the fullest extent possible.

We have notified your local emergency response units to assure they will have access and that your essential services are not interrupted.

For your protection, we have documented the property frontage of your curbs, sidewalks, blacktop, lawns and driveways to ensure that any damage that may be caused is restored to a condition that is at least equal to the current condition. All concrete, blacktop, or grassy areas that are dug up will be restored.

Our Commitment:

We regret any inconvenience that you may experience during this period. This improvement project is part of our ongoing, asset management plan to replace older water mains in order to continue to provide our customers with high quality drinking water and adequate fire protection.
