

Construction Notice

Project: Towamencin Service Line Renewals

North Penn Water Authority (NPWA) will begin the renewal of 55 water services on Creek Way, Squires Way and Valley View Way in Towamencin Township on or about 5/29/2024.

Project Summary:

This project involves the renewal of 55 plastic water services with copper on Creek Way, Squires Way and Valley View Way in Towamencin Township. The water services will be renewed from the existing water main to the property owner's curb stop located in the utility right of way behind the curb in the grass or sidewalk followed by soil, concrete & trench restoration.

We anticipate the construction work to take approximately 2 to 4 weeks to complete, weather permitting. This work is being done in cooperation with Towamencin Townships paving program

Timeline:

The week of May 29, 2024- Mobilization and construction will begin.

Questions:

Please call Jim Sharayko, NPWA Construction Superintendent, at 215-855-3617 x 137 Monday through Friday between 8:30 am and 4:00 pm.

Customer Impact:

In order to ensure the public and workers' safety, Creek Way, Squires Way and Valley View Way will be closed to through traffic during the hours of work (7:00 am – 4:00 pm).

"No Parking" signs will be placed out the day before to designate the area of construction for that day. We kindly ask that you have your vehicle moved when your section of street is posted during construction hours.

At the end of each workday, the roadway will be open and traversable.

School buses, emergency vehicles and residents will have access to their homes, but may experience minor delays in some instances.

We will make every effort to keep unobstructed access open to local residents to the fullest extent possible.

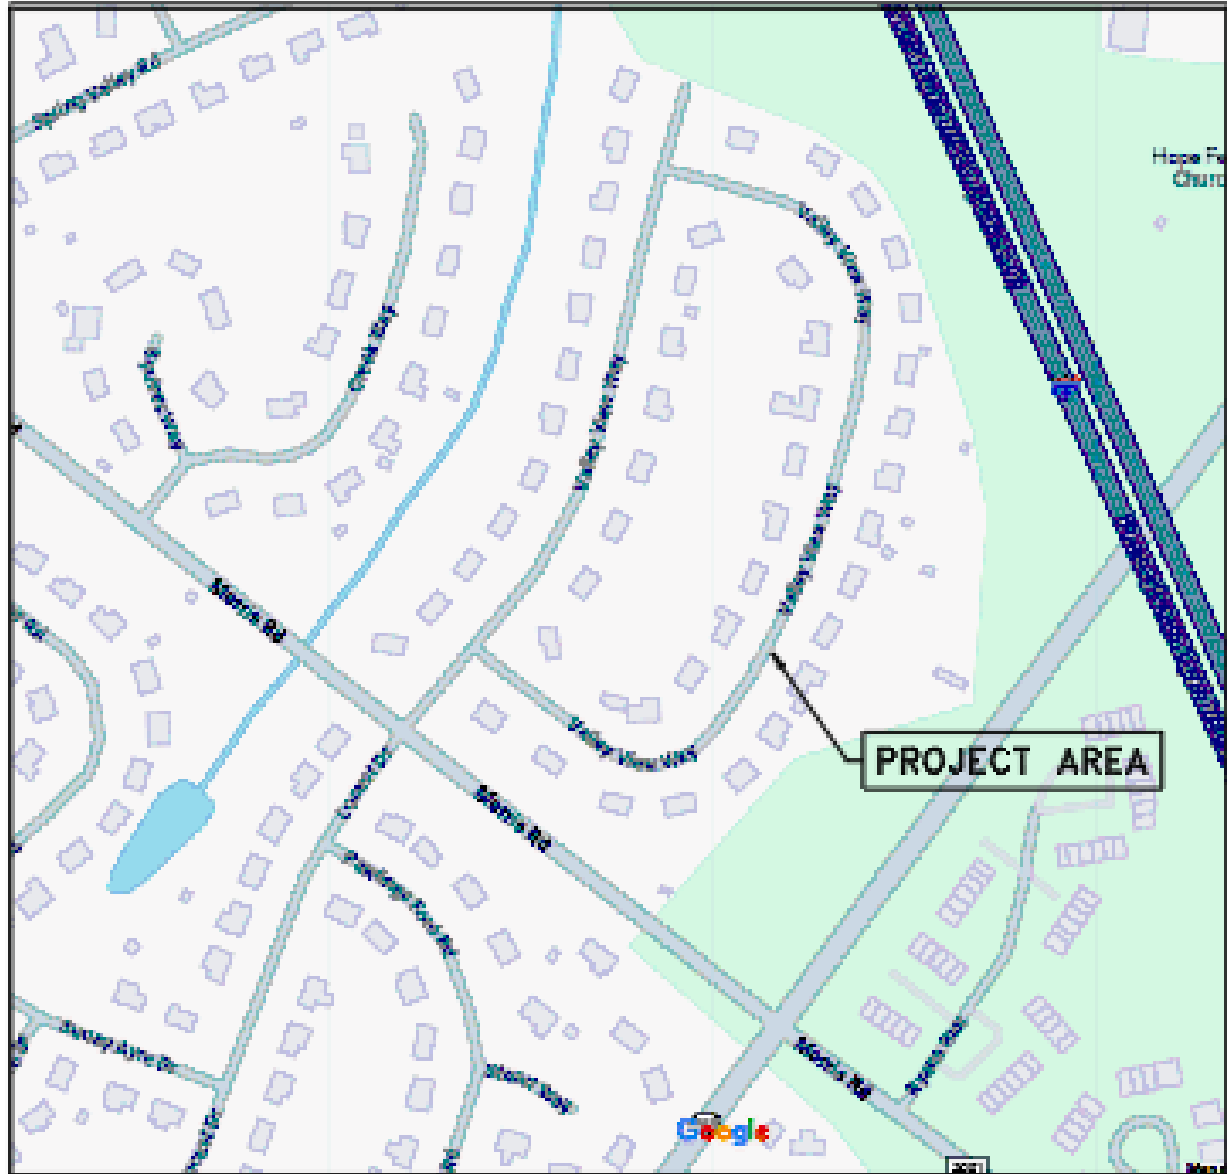

We have notified your local emergency response units to assure they will have access and that your essential services are not interrupted.

For your protection, we have documented the property frontage of your curbs, sidewalks, blacktop, lawns and driveways to ensure that any damage that may be caused is restored to a condition that is at least equal to the current condition. All concrete, blacktop, or grassy areas that are dug up will be restored.

Our Commitment:

We regret any inconvenience that you may experience during this period. This improvement project is part of our ongoing, asset management plan to replace older water mains in order to continue to provide our customers with high quality drinking water and adequate fire protection.
